E-mail davebeaver@eastlandclaim.com

Territory: Northeastern United States

Major Loss Experience:

As co-founder of Eastland Claim Service, Inc., David specializes in complex business interruption issues, manufacturing losses, and surplus and excess lines claims. He has handled sensitive negotiations involving high profile individuals, senior corporate executives, and special assignments for reinsurance carriers that involve high levels of confidentiality. Additionally, David has personally handled such complex claims as

- \$30 million World Trade Center building, contents, business interruption, contingent business interruption claim
- \$40 million foam mattress manufacturing fire loss
- \$20 million recycling plant fire loss
- \$20 million Canadian peat processing plant fire loss
- \$16 million Michigan plastic parts manufacturing fire loss
- \$8 million power plant collapse
- \$7 million public library fire loss
- \$5 million Florida hotel Hurricane George loss
- \$5 million Canadian sludge reprocessing plant explosion
- \$5 million Massachusetts public school fire loss
- \$3 million fire/mold remediation
- \$1.5 million Seattle earthquake loss

Formal Appraisals: David has facilitated settlements in both appraiser and umpire capacities. He has co-authored, *Appraisal for the New Millennium*, a treatise on the subject.

Industry Related Activities:

Over the past 20 years, David has presented programs for the Property Loss Research Bureau, and has been a panelist since 1989 on the subjects of handling business interruption claims for manufacturers, formal appraisals, alternative resolutions and arbitration.

Memberships: Vice President, Leading International Property Adjusters Association; International Institute of Loss Adjusters (Eastern Regional Vice President); National Forum for Property Loss Professionals (advisory board); Loss Executives Association (former program chair); National Association of Independent Insurance Adjusters (former chair of publications committee); New England Claim Executive Association (past president); Society of Chartered Property and Casualty Underwriters (Claim Section).

Education: Central Connecticut State University and the University of Hartford (Connecticut). General Adjustment Bureau Damage Appraisal School, CPCU (1978), IRM Engineering School
